The original website was opened on the 18th of January 2005.

From the outset the response from all over the world has been fantastic.

The family tree which started off with just over 600 entries now boasts 800+ entries - we have added more than 200 new names!

Mlynarzewicz descendants can be found in Australia, USA, UK, Israel, Mexico, Belgium, Argentina, Japan and New Zealand.

In fact, we have the case of Isabelle Schamroth and Moshe Tachnai from Israel being friends for over 26 years and have only now found out that they are cousins.

We have received many new photos for the Family Gallery since the initial launch. Please keep sending your family pictures, important documents or anything else which you would like to be included.
